EDUCATION

- **University Of Petroleum and Energy Studies** Aug 2021 - May 2025
B.Tech Computer Science and Engineering Dehradun

EXPERIENCE

- **HERE Technologies** June 2024 - July 2024
Data Engineer Intern Remote
 - Developed a web scraping pipeline using Scrapy to collect store location data from multiple websites.
 - Implemented efficient data extraction methods, reducing scraping runtime.
 - Presented findings and actionable insights at a team review meeting, receiving positive feedback.

PROJECTS

- **PixScribe - SaaS Text-to-Image Generator Web App** [🔗] [📄]
MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Framer Motion, Razorpay
 - Built a full-stack SaaS web application to provide a smooth and engaging user experience.
 - Developed a credit-based system allowing users to generate custom images, with options to purchase additional credits seamlessly through Razorpay.
 - Designed responsive pages, including Home, Generate, and Buy, featuring a dynamic navbar that displays user profile and remaining credits.
- **SudoWiz: Interactive Sudoku Solver** [🔗] [📄]
React.js, Tailwind CSS, HTML, CSS, JavaScript
 - Developed an interactive Sudoku solver using React and Tailwind CSS to provide a responsive and user-friendly interface.
 - Implemented a backtracking algorithm to efficiently solve Sudoku puzzles and highlight solved cells.
 - Created features for input validation, puzzle solving, and grid resetting, ensuring seamless user experience across different devices.
- **AviaGeek: An Aircraft Encyclopedia for Aviation Enthusiasts** [🔗] [📄] Ongoing
Next.js, React, Tailwind CSS, HTML, CSS, JavaScript, NextAuth, MongoDB, Node.js
 - Designing and developing a user-friendly platform for aviation enthusiasts to explore information on aircraft manufacturers and different aircraft models.
 - Implementing a comparison feature that allows users to compare two aircraft models side by side.
 - Building a personalized profile section where users can add their favorite models and access them later under the "Favorites" tab, along with a news section covering the latest updates in aviation.

SKILLS

- **Programming Languages:** C++, Python
- **Web Technologies:** HTML, CSS, JavaScript, React, Next.js, Node.js, Express.js, Tailwind CSS, Bootstrap
- **Database Systems:** MongoDB
- **Data Science & Machine Learning:** OpenCV, AI, ML
- **DevOps & Version Control:** Git, GitHub
- **Other Tools & Technologies:** Figma, Framer Motion

POSITION OF RESPONSIBILITY

- Student Placement Representative (SPR)
